EQF level Level 4 EQF

2026 Badalona, Spain

ENGLISH C1 EOI Badalona

EQF level Level 6 EQF

06/10/2025 – 27/10/2025 Barcelona, Spain

UNITY COURSE Barcelona Activa

— Learning the basics of programming with C#
— How to use Unity to create 3D video games

GAMING FOR GOOD HACKATHON Junior Achievement x King

- Although it was neither a full course nor an extended work experience, I learned several things that I consider very important to have when entering the workforce.

— Teamwork skills.
— Problem solving against the clock and under pressure.
— Orientation towards achieving goals.

Field of study Hackathon on mobile video games

BLENDER COURSE Jedai (ITIC Barcelona)

- This short course lasted 2 hours and was an introduction to the basics of using the Blender application for 3D modeling.
- Despite how short it was, since I am drawn to the world of video games, it interested me and I kept practicing on my own.

SKILLS

Languages

English (C1) | Spanish (Native) | Catalan (Native) | German (level A2)

Proficiency in applications and AI tools

Unity | Blender | Godot | MySQL | Prompt Engineering | Chat GPT | Claude | Gemini | Perplexity | Dall-e

Programming languages

Java | HTML | CSS | JavaScript | JSON | SQL

Qualities and other

Inclination towards the video game industry | Ease with languages | Teamwork | Patience | AI Native

WORK EXPERIENCE

EXPLAINER – COSMOCAIXA – BARCELONA, SPAIN

- During the third term of the 2023 school year, I was at Cosmocaixa in Barcelona as an Explainer, a volunteer activity that taught me to work with others, as well as to explain scientific facts and speak in front of the public, along with the importance of punctuality.
- Although it was not an ordinary work experience, the environment certainly was a workplace, and it was a good experience that introduced me to the working world for a few months at the museum.
